

CEAMS Board Mandate

- To promote the development of integrated learning strategies and career paths for Energy Asset Management personnel throughout the industry;
- To support the partnership with SAIT (through the Steering Committee) by ensuring the Asset Management Education Program continues to be a leading edge program, responding to the needs of industry;
- With the directors detailed knowledge of industry dynamics, issues and circumstances; anticipate and identify over the medium and long term, emerging issues or trends in asset management/related fields and develop strategies to deal with the issues or take advantage of opportunities;
- To support the continued expansion of access to the CEAMS Education Program, and
- To support increased industry involvement to ensure quality delivery of the program
